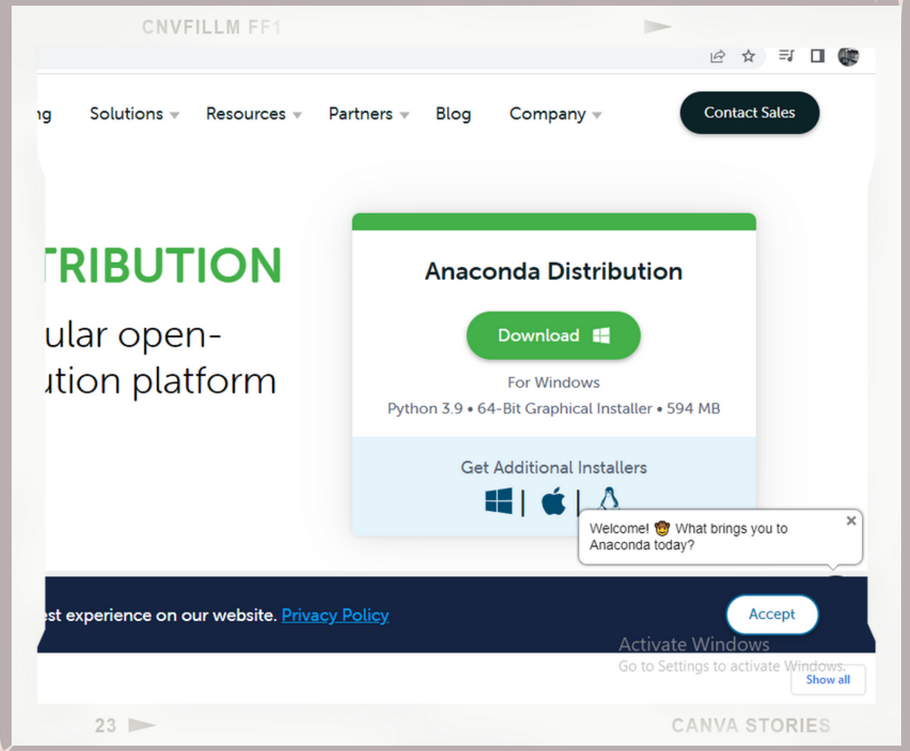
DENA CAHYA SETIA PUTRI

Instalasi ANACONDA

JUMATEC

01



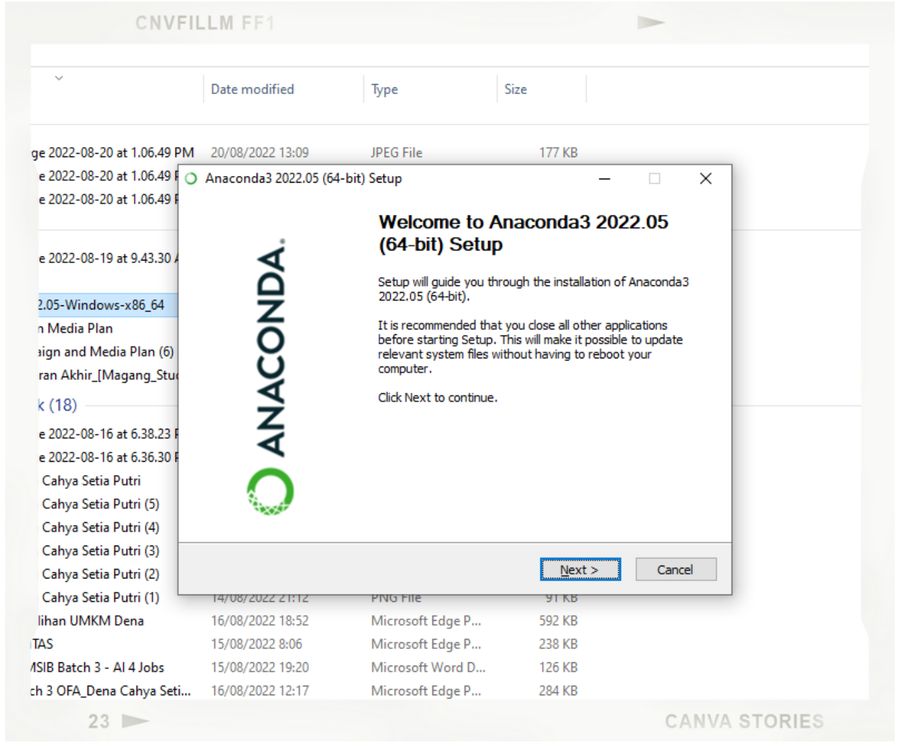
Buka alamat web:

www.anaconda.com/products/individual

Klik "Download"

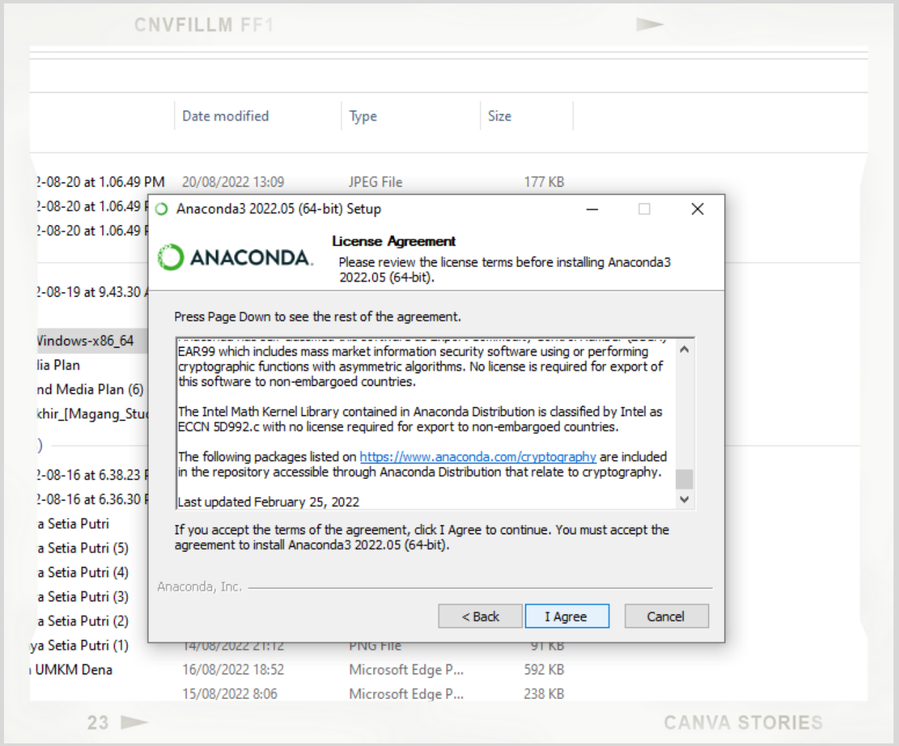
Jika ada pilihan file maka pilih file installer yang cocok dengan PC anda.

02



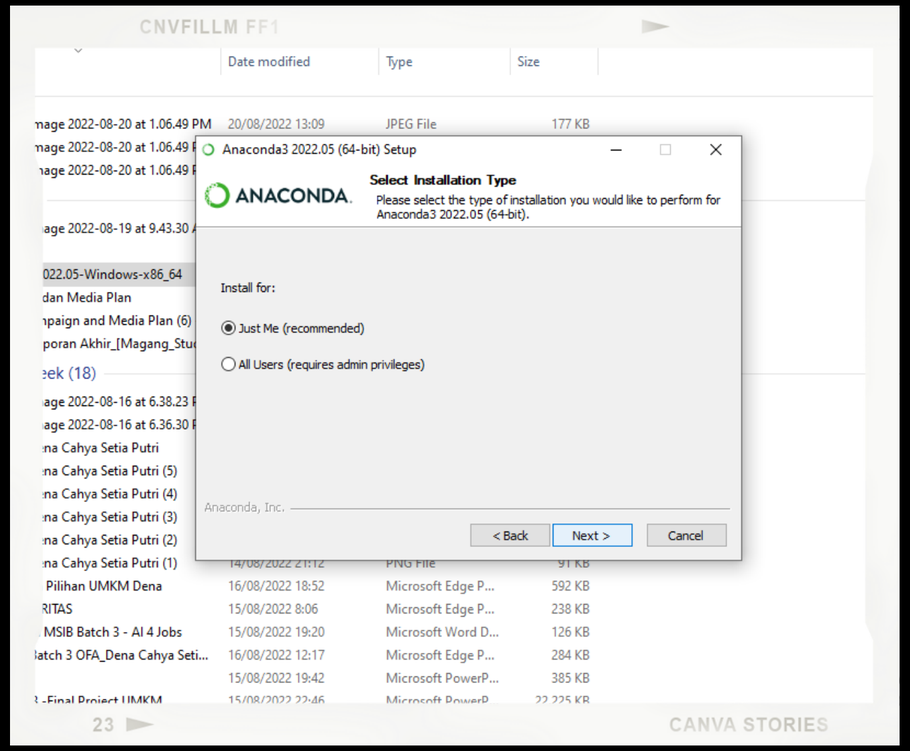
Jika sudah berhasil download, lalu buka file installer, dan klik "Next".

Langkah ke 03



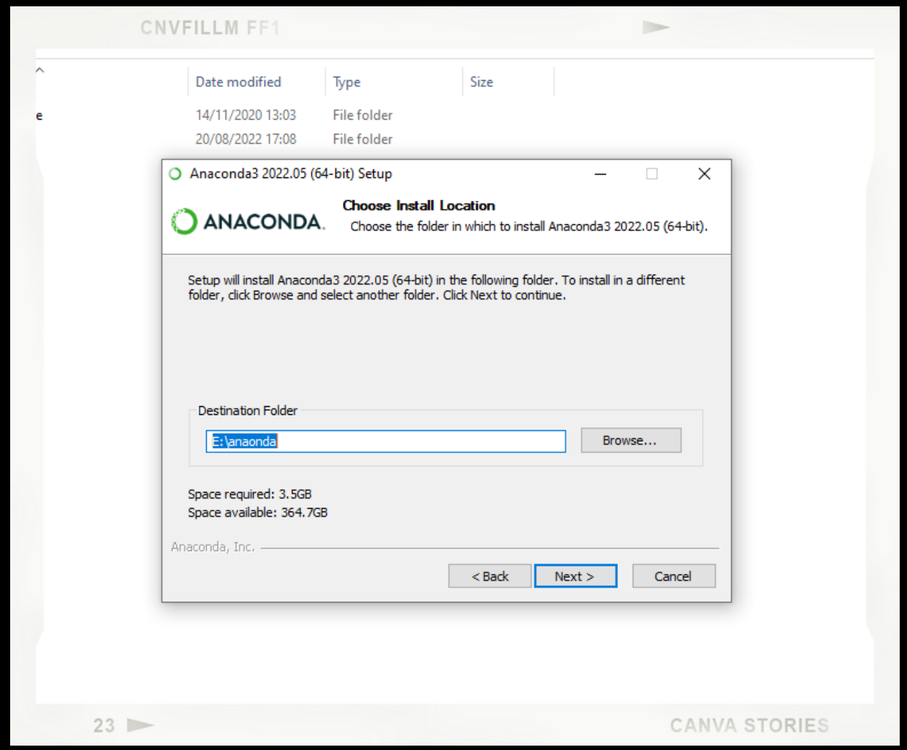
Klik "I Agree"

04



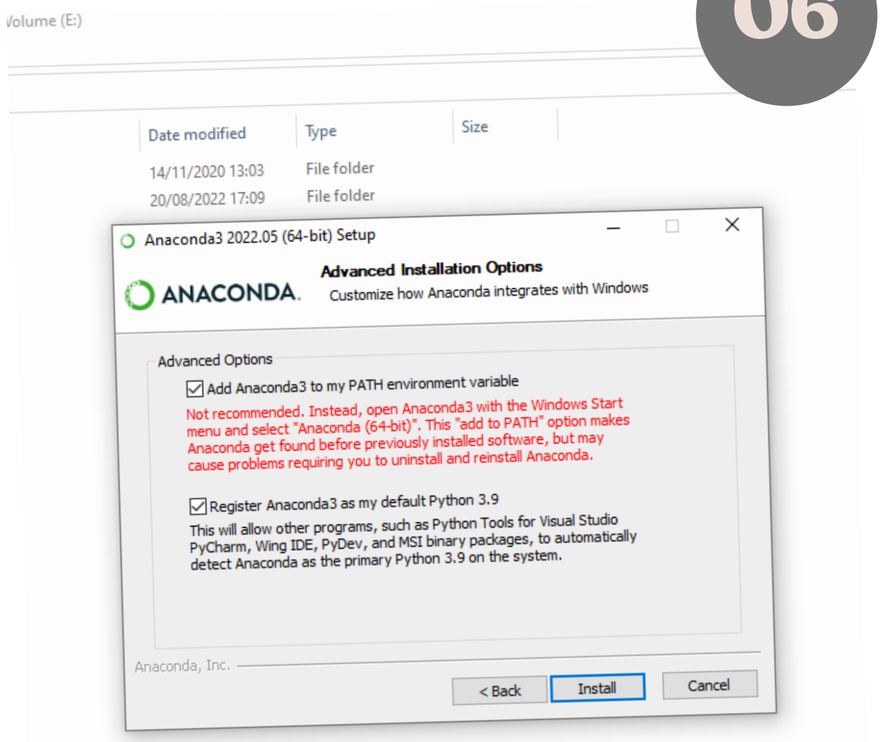
Pilih **Just Me (recommended)**, lalu klik tombol **"Next"**.

05



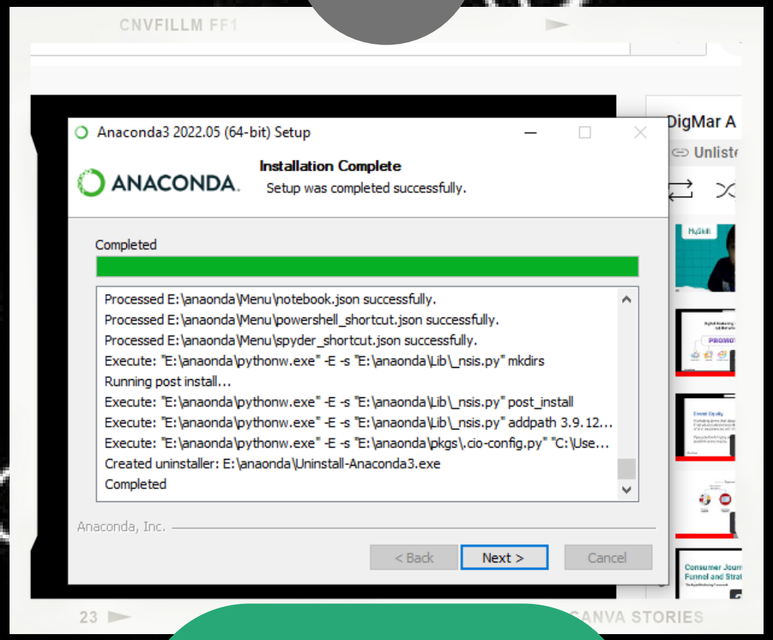
Pilih tempat untuk menyimpan file.

06



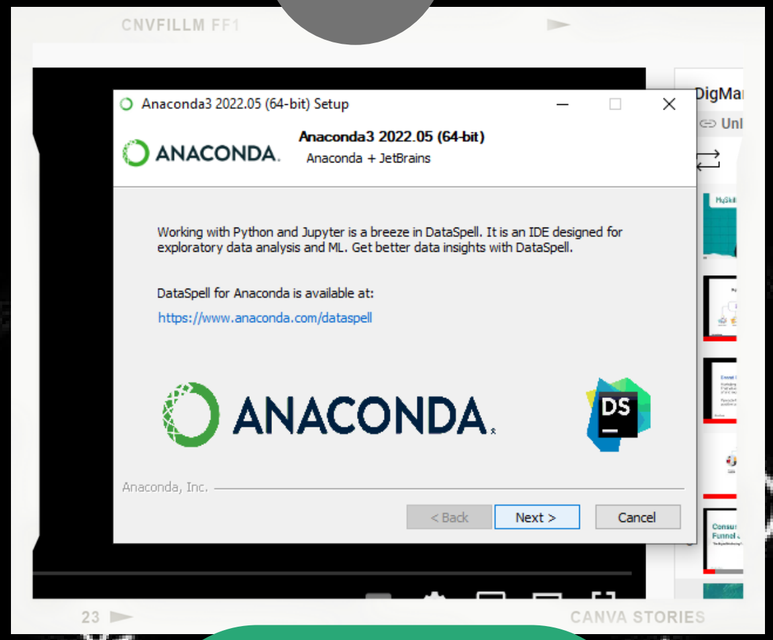
- Add Anaconda3 to my PATH environment variable
- Register Anaconda3 as my default Python 3.9

07



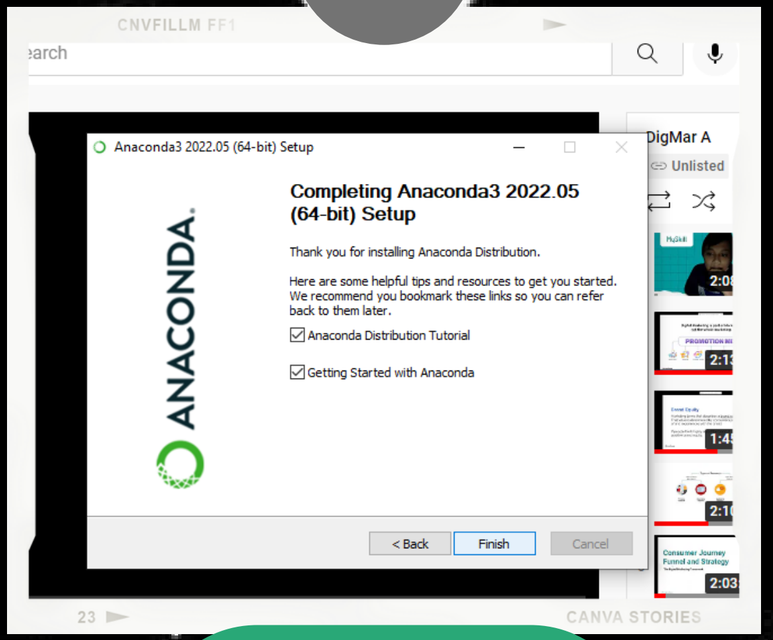
Setelah install selesai klik **"Next"**

08



klik **"Next"**

09



klik **"Finish"**
